DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	21 Jul 2023	Initial draft.	Dr. Alfred Ang
2.0	29 Aug 2026	Rebuilt around an evidence-led agentic video workflow with eight connected labs.	Dr. Alfred Ang
3.0	15 Sep 2026	Hermes Agent and MiniMax M3 replace n8n; FRAME-CUT prompting; governed tools and skills.	Dr. Alfred Ang
4.0	16 Sep 2026	Simplified to four creative labs; micro-drama series; five-agent Kanban production.	Dr. Alfred Ang
5.0	8 Oct 2026	Realigned to the approved Course Proposal: three Learning Units and Learning Outcomes verbatim, and the TSC Video Editing-4 (MED-MPN-4005-1.1) Knowledge K1-K5 and Abilities A1-A7 stated on the slides and in every document. Topics renamed to the published course outline. New content: history of AI; agentic AI vs AI agents; a single AI agent; principles of video creation (story, script, storyboard, characters, shots, sound, captions); quality issues, standards, work plans and parameters; the Flova video agent; Hermes Agent with skills, plugins, the Flova CLI and a multi-agent studio on Kanban; industry standards, remedial actions and technology adoption. Six connected labs on one financial-planning micro-drama series (Kopi & Coins). Deck redesigned to the house design system shared with Agentic AI Applications with Codex.	Dr. Alfred Ang
5.1	9 Nov 2026	Higgsfield-edition design system; Login to LMS slide; Topic 1 adds AI impact and five use cases with YouTube examples; Topic 3 ends with GenAI video ethics; Day 2 afternoon re-timed (labs unchanged); deck opens without the PowerPoint Repair prompt. Assessment unchanged.	Dr. Alfred Ang

Course Overview

A two-day, hands-on WSQ course in which learners act as the AI video producer of one studio — Kopi & Coins, which makes 60-second money stories for young adults in Singapore. Day 1 plans Episode 1 with a single AI agent and makes the first cut with the Flova video agent. Day 2 reviews and refines the cut, then scales the studio with Hermes Agent: the Flova skill, a compliance skill, and a five-agent team on Kanban that makes Episode 2.

Course title	Agentic AI for Video Creation
Course code	TGS-2023036088
TSC	Video Editing-4 (MED-MPN-4005-1.1) · Skills Framework for Media
Duration	2 days · 16 hours: 14 training hours + 2 assessment hours (WA-SAQ 1 h, PP 1 h)
Class time	9:30 AM – 6:30 PM, 1-hour lunch, two 15-minute tea breaks a day
Deck	149 slides, version 5.1 · 6 labs, each in its own folder
Training provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)

Learning Outcomes

By the end of this course, learners will be able to:

- **LO1:** Develop editing strategies and work plans to achieve creative vision.
- **LO2:** Assess edited footage to enhance storytelling and ensure technical compliance.
- **LO3:** Develop remedial actions to ensure industry compliance and facilitate the adoption of new technologies in visual editing.

Knowledge and Abilities

Code	TSC statement	Where it is taught
K1	Types of quality issues in video content	T1 · Quality issues in video content · Lab 1
K2	Types of solutions to rectify quality issues	T2 · Quality issue → solution · Labs 3-4
K3	Parameters to assess video quality	T2 · Parameters to assess video quality · Lab 4
K4	Industry quality standards	T3 · Industry quality standards · Lab 5
K5	Technologies that improve efficiency and quality of video edits	T3 · Emerging video technologies · Labs 5-6
A1	Review scripts to conceptualize the types of edits required to achieve creative vision of production	T1 · Reviewing a script for edits · Lab 1
A2	Develop editing standards and guidelines in accordance to legal requirements and broadcasting standards	T1 · Editing standards and guidelines · Lab 2
A3	Develop work plans to outline the processes and timelines needed for the post production processes	T1 · Post-production work plans · Lab 2
A4	Review edited footage to propose changes that will enhance the story and emotions in each scene	T2 · Story and emotion review · Lab 4
A5	Assess edited footage against technical parameters to ensure alignment to requirements	T2 · Technical QC against parameters · Lab 4

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Code	TSC statement	Where it is taught
A6	Develop remedial actions to resolve issues that do not comply with industry standards	T3 · Remedial action plans · Lab 5
A7	Facilitate the adoption of new technologies to improve the efficiency and quality of visual outputs	T3 · Adoption roadmap · Lab 6

Learning Units, Outcomes and Assessment

Learning Unit / Topic	LO	K & A	Labs	Assessment
LU1 — Topic 1: Creative Strategy and End-to-End Video Production with Agentic AI	LO1	K1, A1, A2, A3	1, 2	WA Q1; PP Task 1
LU2 — Topic 2: AI-Assisted Video Editing, Storytelling and Quality Assurance	LO2	K2, K3, A4, A5	3, 4	WA Q2, Q3; PP Task 2
LU3 — Topic 3: Workflow Optimisation, Industry Compliance and Emerging Video Technologies	LO3	K4, K5, A6, A7	5, 6	WA Q4, Q5; PP Task 3

Daily Schedule

Both days run 9:30 AM – 6:30 PM: 8 hours a day excluding the 1-hour lunch, with tea breaks counted as training contact time. The Slides column gives the deck pages for each block.

Day 1 — Plan and Make

Time	Duration	Topic / Activity	Method	Slides
9:30 AM–10:00 AM	30 min	Welcome, digital attendance, trainers, ground rules, learning outcomes, TSC knowledge and abilities, the Kopi & Coins scenario, course outline, lesson plan, assessment briefing and the LMS	Lecture, discussion	1–20
10:00 AM–11:00 AM	60 min	Topic 1 — LO1, K1, A1-A3; a short history of AI; the impact of AI on video creation; use cases: AI movies, micro-dramas, singers, influencers and marketing videos; agentic AI vs AI agents; anatomy of a single AI agent; the agentic loop; tools, skills and memory; which agent for which job	Lecture, didactic questioning	21–35
11:00 AM–11:15 AM	15 min	Tea break	—	—
11:15 AM–12:00 PM	45 min	Topic 1 — principles of video creation: the production lifecycle, creative vision, 60-second story structure, scripts, storyboards, shot sizes, angles and movement, characters, composition, sound and captions; types of quality issues (K1); edit types and script review (A1)	Lecture, demonstration	36–49
12:00 PM–12:50 PM	50 min	Lab 1 — Plan the Story with a Single AI Agent	Hands-on practical	50–56
12:50 PM–1:00 PM	10 min	Editing standards and guidelines (A2); legal requirements for video in Singapore	Lecture	57–58
1:00 PM–2:00 PM	60 min	Lunch	—	—
2:00 PM–2:30 PM	30 min	Broadcasting and platform standards; the post-production workflow; work plans, timelines and review gates (A3)	Lecture, demonstration	59–62

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Time	Duration	Topic / Activity	Method	Slides
2:30 PM–3:30 PM	60 min	Lab 2 — Storyboard, Editing Standards and Work Plan	Hands-on practical	63–69
3:30 PM–3:40 PM	10 min	Topic 1 recap and check your understanding	Didactic questioning	70
3:40 PM–3:55 PM	15 min	Tea break	—	—
3:55 PM–4:30 PM	35 min	Topic 2 — LO2, K2, K3, A4, A5; AI video agents; the Flova workspace and pipeline; the Creative Brief; Elements; checkpoints; models and credits; micro-drama structure; directing a video agent	Lecture, live demonstration	71–82
4:30 PM–5:45 PM	75 min	Lab 3 — Create Episode 1 with the Flova Video Agent	Hands-on practical	83–87
5:45 PM–6:30 PM	45 min	Reviewing edited footage: two passes; story and emotion review (A4); emotion, pacing and rhythm; Day 1 review and Q&A	Lecture, discussion	88–90

Day 2 — Refine and Scale

Time	Duration	Topic / Activity	Method	Slides
9:30 AM–9:45 AM	15 min	Day 1 recap	Didactic questioning	—
9:45 AM–10:30 AM	45 min	Parameters to assess video quality (K3); quality issues and solution types (K2); the technical QC procedure (A5)	Lecture, demonstration	91–96
10:30 AM–11:30 AM	60 min	Lab 4 — Review and Refine the Edit	Hands-on practical	97–101
11:30 AM–11:40 AM	10 min	Topic 2 recap and check your understanding	Didactic questioning	102
11:40 AM–11:55 AM	15 min	Tea break	—	—
11:55 AM–1:00 PM	65 min	Topic 3 — LO3, K4, K5, A6, A7; from one agent to a team; Hermes Agent; installation; skills, plugins and MCP; the Skills Hub; connecting Flova; industry quality standards (K4); remedial action plans (A6); the compliance skill	Lecture, live demonstration	103–117
1:00 PM–2:00 PM	60 min	Lunch	—	—
2:00 PM–3:00 PM	60 min	Lab 5 — Hermes, Flova, Skills and a Compliance Review	Hands-on practical	118–123
3:00 PM–3:20 PM	20 min	The multi-agent studio: roles, profiles and SOUL.md, Kanban, delegate_task vs Kanban, scheduling; emerging video technologies (K5); the adoption roadmap and metrics (A7)	Lecture, live demonstration	124–132
3:20 PM–4:10 PM	50 min	Lab 6 — A Multi-Agent Video Studio on Kanban	Hands-on practical	133–138
4:10 PM–4:30 PM	20 min	The core ethical issues of GenAI video and seven studio rules; Topic 3 recap; course summary, Q&A, LMS, TRAQOM, briefing for assessment and assessment attendance	Discussion	139–149
4:30 PM–5:30 PM	60 min	Written Assessment (WA-SAQ) — open book, 1 hour	Assessment	—
5:30 PM–6:30 PM	60 min	Practical Performance (PP) — 1 hour; TRAQOM, assessment attendance, submit on the LMS, sign the record	Assessment	—

Total training hours: 14 · Total assessment hours: 2 · Course total: 16 hours

Topic-by-topic Breakdown

Topic 1 — Creative Strategy and End-to-End Video Production with Agentic AI · Slides 21–70

LU1 · LO1: Develop editing strategies and work plans to achieve creative vision.

Knowledge: K1 Types of quality issues in video content

Abilities: A1 Review scripts to conceptualize the types of edits required to achieve creative vision of production; A2 Develop editing standards and guidelines in accordance to legal requirements and broadcasting standards; A3 Develop work plans to outline the processes and timelines needed for the post production processes

Topics covered:

- A short history of AI, and agentic AI vs AI agents
- One AI agent: the loop, tools, skills and memory
- Principles of video creation: story, script, storyboard, characters, shots
- Quality issues, script review, standards and work plans

Lab 1 — Plan the Story with a Single AI Agent · Slides 50–56 · Day 1, 50 min · K1, A1

- **Agent:** ChatGPT (or Claude / Gemini) — one AI agent
- **Output:** creative-brief.md, script-v1.md and script-review.md for Episode 1
- **Evidence:** The brief names one audience, one message and the must-avoid rules. You accepted or rejected at least two suggestions and wrote why.
- **Lab folder:** labs/lab-01-plan-the-story-with-one-agent/

Lab 2 — Storyboard, Editing Standards and Work Plan · Slides 63–69 · Day 1, 60 min · A2, A3

- **Agent:** ChatGPT (same chat) + a spreadsheet
- **Output:** character-bible.md, storyboard.md, editing-standards.md and work-plan.csv
- **Evidence:** The character bible fixes five visible traits each for Rachel, Ah Ma and the tin. Your partner named one continuity risk and you fixed it.
- **Lab folder:** labs/lab-02-storyboard-standards-and-work-plan/

Topic 2 — AI-Assisted Video Editing, Storytelling and Quality Assurance · Slides 71–102

LU2 · LO2: Assess edited footage to enhance storytelling and ensure technical compliance.

Knowledge: K2 Types of solutions to rectify quality issues; K3 Parameters to assess video quality

Abilities: A4 Review edited footage to propose changes that will enhance the story and emotions in each scene; A5 Assess edited footage against technical parameters to ensure alignment to requirements

Topics covered:

- AI video agents and the Flova workspace
- Elements, the Creative Brief and checkpoints
- Reviewing edited footage for story and emotion
- Parameters to assess quality, and how to fix issues

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Lab 3 — Create Episode 1 with the Flova Video Agent · Slides 83–87 · Day 1, 75 min · K2, A4 (preparation)

- **Agent:** Flova (flova.ai) — an AI video agent
- **Output:** Flova project "EP01 The Rainy-Day Tin" with three Elements, an approved storyboard and rough cut v1 exported
- **Evidence:** Rachel, Ah Ma and the blue tin exist as Elements. v1 is exported and your checkpoint log is saved.
- **Lab folder:** labs/lab-03-create-episode-1-in-flova/

Lab 4 — Review and Refine the Edit · Slides 97–101 · Day 2, 60 min · K2, K3, A4, A5

- **Agent:** Flova (Storyboard, Timeline, chat) + QC checklist
- **Output:** story-review.md, qc-report.md and EP01 v2 exported at 1080p
- **Evidence:** story-review.md covers all six scenes with intended feeling, actual feeling and a proposed change. The fix log shows each failed item re-checked after the fix.
- **Lab folder:** labs/lab-04-review-and-refine-the-edit/

Topic 3 — Workflow Optimisation, Industry Compliance and Emerging Video Technologies · Slides 103–143

LU3 · LO3: Develop remedial actions to ensure industry compliance and facilitate the adoption of new technologies in visual editing.

Knowledge: K4 Industry quality standards; K5 Technologies that improve efficiency and quality of video edits

Abilities: A6 Develop remedial actions to resolve issues that do not comply with industry standards; A7 Facilitate the adoption of new technologies to improve the efficiency and quality of visual outputs

Topics covered:

- From one agent to a team: Hermes Agent
- Skills, plugins and connecting Flova
- Industry quality standards and remedial actions
- A multi-agent studio on Kanban, and adopting new technology

Lab 5 — Hermes, Flova, Skills and a Compliance Review · Slides 118–123 · Day 2, 60 min · K4, A6

- **Agent:** Hermes Agent (Desktop or CLI) + Flova CLI
- **Output:** Hermes with Flova connected, the kopi-compliance-review skill, and compliance-report.md with remedial actions for EP01 v2
- **Evidence:** hermes doctor passes and a model answers in chat. No API key appears in any file, prompt or screenshot.
- **Lab folder:** labs/lab-05-hermes-flova-skills-and-compliance/

Lab 6 — A Multi-Agent Video Studio on Kanban · Slides 133–138 · Day 2, 50 min · K5, A7

- **Agent:** Hermes (profiles, Kanban, dashboard, cron) + Flova skill

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- **Output:** Five profiles, a Kanban board with the Episode 2 dependency chain, an EP02 draft in Flova, a paused weekly schedule and adoption-plan.md
- **Evidence:** Five profiles exist, each with its own SOUL.md. adoption-plan.md has a baseline, pilot measures, governance and a decision point.
- **Lab folder:** labs/lab-06-multi-agent-studio-on-kanban/

Instructional Methods

Method	How it is conducted	Purpose
Lecture	Trainer explains concepts with the slides, using worked examples from the Kopi & Coins series.	Builds the underpinning knowledge K1-K5 before each lab.
Didactic questioning	Trainer asks targeted questions during and after each topic ("which edit makes this scene land?").	Checks understanding of K and A before moving on; prepares for the WA.
Demonstration	Trainer performs the procedure live: a prompt, a Flova checkpoint, a Hermes install, a Kanban board.	Shows the standard of performance expected for A1-A7.
Hands-on practical	Learners complete six connected labs with an AI agent, Flova and Hermes, using the lab folders.	Develops the abilities A1-A7 that the PP assesses.
Peer review and discussion	Learners swap storyboards, reviews and plans and critique each other against the checklists.	Develops judgement for reviewing scripts, footage and compliance (A1, A4, A6).

Resources Required

- Trainer: the v5.1 slide deck, this Lesson Plan, the Facilitator Guide, the Learner Guide, the Assessment Plan and the lab pack (labs/, six folders).
- Each learner: a laptop (macOS, Windows with WSL2, or Linux) with internet access, a modern browser and a smartphone for viewing vertical video.
- Accounts: a chat AI assistant (ChatGPT, Claude or Gemini — free tier is enough); a Flova account (sign-up credits, or the trainer's team account); a model provider for Hermes Agent (via hermes setup).
- Software installed during the course: Hermes Agent (Desktop or CLI) and the Flova CLI. Optional: FFmpeg for the measurement demo.
- All characters, scripts and data are fictitious. Learners never upload publicly and never share API keys.

Assessment

- Day 2, 4:30 – 6:30 PM: Written Assessment (WA-SAQ, 5 short-answer questions, K1-K5, 1 hour) from 4:30 PM, then Practical Performance (PP, 3 tasks, A1-A7, 1 hour) from 5:30 PM.
- Open book: slides, Learner Guide and the learner's own lab work. Generative AI may be used only where a PP task states it; the decisions and evidence must be the candidate's own.
- Outcome recorded as Competent or Not Yet Competent.
- Funding criteria: minimum 75% attendance, and assessed as Competent in both the WA and the PP.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Assessment flow: TRAQOM survey → assessment digital attendance → WA and PP → submit answers on the LMS → sign the Assessment Summary Record.
- Courseware and assessment are on the LMS: https://lms-tms.tertiaryinfotech.com/
